Top of the Class

“Schools and colleges are turning more and more to alternative solutions in order to get their new classrooms and other buildings developed,” says Rural Log Cabins Director Steve Missen.

Advantages include:

- Can be erected more quickly and are potentially quicker to get through planning approval.
- Make very stylish, eco-friendly buildings that blend well in their surroundings
- Can be used to teach children about environmental issues and sustainable living
- Very affordable

Beating the Budget Bug

Ashby School, based in Ashby de la Zouch in Leicestershire, was one of the first educational establishments to turn to Rural Log Cabins to solve their building problems. The school now has two outside eating areas, the first was erected in 2005 and the second one within 12 months— both fully equipped to serve hot and cold food and drinks.

outbuildings from Rural. They are really popular with the students, who prefer to be outside on their breaks, plus the buildings have eased congestion around the school at break times. They are a valuable asset to the school’s catering service.” Says Nicola Leigh, Catering Manager at Ashby School.

In addition, the company has built an outside food station for Wreake Valley Community College in Leicestershire and a classroom, toilets and kitchen facility for Chackmore playgroup in Buckinghamshire. Rural Log Cabins Limited prides itself on its environmental credentials and is able to supply a wide range of sustainable features from solar and photovoltaic panels for heating and energy to biogesters and rainwater harvesters.

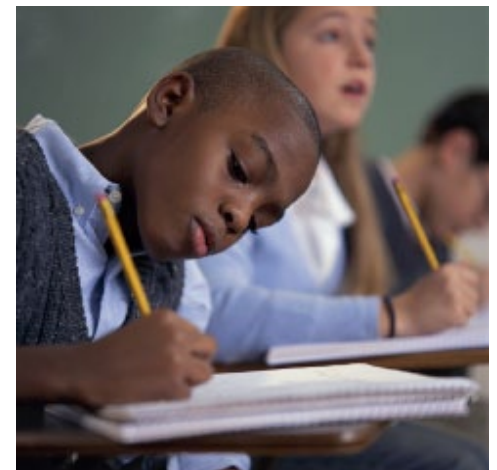

About Rural Log Cabins

Rural Log Cabins Limited is one of the country’s leading suppliers of timber buildings. The company designs and builds structures for a variety of uses, encompassing education, residential and commercial.

Log cabins make excellent extra classrooms, outside resource areas and eating stations for schools and have been used in a variety of other applications, from visitor centres for llama trekking, training centres in water parks, and as holiday and permanent homes.

Rural has been producing bespoke log cabins for over eight years and also supplies environmental solutions which can be incorporated in the building and

which are designed to work hand in hand with the local landscape and ecology.

Providing school buildings that can beat the budget.

“These log cabin designs are ideal for schools,” says director Steve Missen. “We can design them individually for whatever the school needs and equip them with full plumbing facilities so they can stand alone if necessary. But the real advantage is that they can be built within a few weeks, easily within the summer holidays.”

“They provide a real and more permanent, long-lasting, alternative to the portacabin style classrooms that many schools rely on when their admission numbers go up. And they are much more attractive and eco-friendly.”

Bespoke designs to meet the needs of schools.

“We are extremely happy with the two
